

How can I create publication lists?

- [Search for publications related to a specific author](#)
- [Search for publications related to a department](#)
- [Search for a single publication to link to your website](#)

Search for publications related to a specific author

To create a list of publications from an author, click on the top right on e.g. "[PSI Authors](#)" to receive publications that belong only to this specific author. There, either use the alphabetic browsing to search for an author or type his/her name in the "*Look for a name...*" field. Click on the author's name to receive the publication list. You will receive a list with all publications related to this specific author:

In this case you make sure, that you will only get the publications of this specific author and not every publication which belongs to an author with a similar name.

Search for publications related to a department

The easiest way to receive a publication list related to a specific department is by clicking on the DORA Logo (so that you land on the starting page) and choosing the unit at the left side of the website.
